Experience

Wyreflow Technologies — Software Developer Intern

Feb 2026 – May 2026

React.js • TypeScript • Tailwind CSS • REST APIs • Razorpay • Git • GitHub • Figma

- Engineered **50+ Figma designs** into production-ready, responsive interfaces using **React.js**, **TypeScript**, and **Tailwind CSS** for a large-scale recruitment platform.
- Improved page load times of key pages by approximately **20–30%** through **lazy loading**, component memoization, code splitting, and rendering optimizations.
- Integrated secure payment workflows using **Razorpay**, enabling **UPI**, debit/credit cards, net banking, and wallet-based payments for candidate registration and placement services.
- Led an **8-member team**, coordinating feature implementation, pull request reviews, and sprint deliverables.
- Resolved **100+ frontend issues** in collaboration with QA engineers, improving application stability, responsiveness, and overall user experience.

PROJECTS

Sentinel – CRPF Personnel & Weapon Management System

[Live](#) — [GitHub](#)

MERN Stack, MongoDB, Express.js, React.js, Node.js, JWT, Socket.io

- Built a full-stack platform for secure management of **personnel records, weapon inventories, and duty assignments** for CRPF operations.
- Implemented **role-based JWT authentication** with Admin, Sub-Admin, and Personnel access levels.
- Developed interactive dashboards for monitoring operational readiness, personnel records, and weapon issuance.
- Integrated **real-time messaging** using Socket.io for seamless communication between authorized users.

BookShare – Peer-to-Peer Book Sharing Platform

[Live](#) — [GitHub](#)

Next.js, TypeScript, Node.js, PostgreSQL, Prisma, JWT, Stripe

- Built a full-stack platform enabling users to **lend, borrow, and track books** with real-time availability and doorstep delivery.
- Implemented a **coin-based gamification system** with secure **Stripe** payment integration for purchasing virtual coins.
- Developed **JWT-based authentication**, role-based authorization, and secure payment workflows for rentals and deposits.
- Designed and optimized the PostgreSQL database using **Prisma ORM**, improving data consistency and query efficiency.
